### PROFESSIONAL PROFILE

A dedicated Austrian IT professional with considerable experience in a range of software development environments and a specialisation in web technologies. Passionate about crafting maintainable software systems to support business processes and creatively solving challenging problems. A proactive team member with excellent communication, planning and research skills, with a distinctive awareness and understanding of the languages of business and IT.

### EDUCATION

- Oct. 2011– Jan. 2014 **Master Information Management**, *FH Joanneum University of Applied Sciences*.  
Diplom-Ingenieur für technisch-wissenschaftliche Berufe (DI, MSc equivalent)
- Oct. 2008– Sep. 2011 **Bachelor Information Management**, *FH Joanneum University of Applied Sciences*.  
Bachelor of Science in Engineering (BSc)

### CAREER SUMMARY

- Mar. 2015– current **Web Developer (Full-time)**, *all about apps GmbH*, Vienna, Austria.  
Specified and implemented backend API services and frontend (responsive / mobile hybrid) apps. Improved overall project quality and lead time by introducing test-driven development, common code conventions, template projects, auto-generated documentation and static typing.
- Apr. 2013 **Course Instructor (Freelance)**, *Renner Institut Stmk*, Graz, Austria.  
Organised and held an all-day workshop “Social Media Marketing” at BFI Graz, Austria.
- Oct. 2012– Apr. 2013 **Software Developer (Practicum & Freelance)**, *FH Joanneum GmbH*, Graz, Austria.  
Designed a framework to implement 20 different interactive exhibits for a permanent exhibition and coordinated deployment at Universalmuseum Joanneum GmbH, Graz, Austria.
- Aug. 2012– Sep. 2012 **Show Presenter (Freelance)**, *FH Joanneum GmbH*, Graz, Austria.  
Presented my project “WISP” at Märklin’s Open Days September 2012, Göppingen, Germany.
- Feb. 2011– Apr. 2011 **Software Developer (Internship)**, *Management Partners GmbH*, Graz, Austria.  
Designed and implemented a failover backup system which is now used by various hospitals. Automated detection of obsolete code in Microsoft Access components and TSQL procedures.

### KEY SKILLS

- ICT Proficient in all JavaScript environments (clientside, node.js), language standards (ES6, TypeScript, CoffeeScript) and several HTML5 / CSS technologies; Expert knowledge in test-driven development, entity-relationship modelling (T/PL-SQL), specifying REST API services and utilising JS libs (react, flux, hapi, sequelize, gulp, webpack, cordova)
- Languages Fluent in German and English

### ADDITIONAL DETAILS

Full, clean driving licence; Open Source Contributor (e.g. `GOOGLE-WEBFONTS-HELPER` with 400+ stars)
