SUMMARY

I am an IT generalist, more precisely an information management MSc BSc graduate with expertise in both technical and business management related fields of study. My passion is to design and develop maintainable open source software. I aspire to craft systems that shape and empower our society.

EXPERIENCE

RENNER INSTITUT STMK | Workshop Presenter

April 2013 (contract for services) | Graz, Austria

- Organized and held an all-day workshop "Social Media Marketing" together with a fellow student in front of nine participants at BFI Graz, Austria

FH JOANNEUM | Developer & Project Management Assistant

October 2012 – April 2013 (contract for services) | Graz, Austria

- Implemented 20 interactive exhibits for a permanent exhibition at Universalmuseum Joanneum GmbH, Graz, Austria
- Designed a core exhibit framework in AS3/Flex to enable fast prototyping, a unified user experience and decoupling logic from content (own CMS)
- Held three hands-on workshops with internal personnel and coordinated installation at the client

FH JOANNEUM | Developer & Show Presenter

August 2012 – September 2012 (contract for services) | Graz, Austria

- Presented the interactive application "WISP" in front of 3000+ visitors at Märklin's Open Days September 2012, Göppingen, Germany
- Conducted user studies to enhance usage of Microsoft's Kinect as primary input device and implemented WISP in AS3/Flex

MANAGEMENT PARTNERS | Developer

February 2011 – April 2011 (3 month internship) | Graz, Austria

- Implemented several software components for their e-health application "ICOsys"
- Supported their overall development process by developing an automating dependency analysis for Microsoft Access components and designed a failover backup system that exports medical reports to PDF

STAHL- UND WALZWERK MARIENHÜTTE | IT Assistant

every August from 2005 – 2008 (holiday job) | Graz, Austria

- Enhanced the user interface of a Microsoft Access application and refined some software components to support their internal logistics process

OPEN SOURCE PROJECTS ON GITHUB

September 2014	ranf.tl	personal site and blog
May 2014	SJgrabber	TV show link grabber (desktop app)
January 2014	Physiogame	master thesis project (desktop app)

INTERESTS

Software Design & Implementation • Open Source • Collaboration • Usability Patterns • Automation & Deployment • Back- & Frontend • Cloud Computing
