SUMMARY

I am an IT generalist, more precisely an information management MSc BSc graduate with expertise in both technical and business management related fields of study. My passion is to design and develop maintainable open source software. I aspire to craft systems that shape and empower our society.

EXPERIENCE

RENNER INSTITUT STMK | Workshop Presenter
April 2013 (contract for services) | Graz, Austria

- Held the workshop "Social Media Marketing" with a fellow student
- Planned an all-day seminar covering Web 2.0, social media platforms, marketing strategies, security and privacy

FH JOANNEUM | Developer & Project Management Assistent
October 2012 – April 2013 (contract for services) | Graz, Austria

- Planned and implemented an extensible framework in AS3/Flex to support the development of several interactive exhibits
- Held hands-on workshops with internal personnel & coordinated workload client and external personnel of several involved parties
- Developed 20 interactive exhibits (software, hardware and maintenance) for a permanent exhibition at Universalmuseum Joanneum GmbH, Graz, Austria

FH JOANNEUM | Developer & Show Presenter
August 2012 – September 2012 (contract for services) | Graz, Austria

- Developed and presented the interactive application "WISP" at Märklin's Open Days September 2012, Göppingen, Germany
- WISP was implemented in AS3/Flex and used Microsoft's Kinect as primary input device

MANAGEMENT PARTNERS | Developer
February 2011 – April 2011 (3 month internship) | Graz, Austria

- Planned and developed several components for their e-health application "ICOsys"
- Implemented an automated dependency analysis for Microsoft Access components and a backup system that exports reports to PDF

STAHL- UND WALZWERK MARIENHÜTTE | IT Assistent
every August from 2005 – 2008 (holiday job) | Graz, Austria

- Implemented several software components to support their internal logistics process
